

Terminal Information

TOTAL ANNUAL OUTBOUND THROUGHPUT CAPACITY

~25 million tons

PRODUCTS HANDLED

Coal, Coke

ABOUT THE CEREDO DOCK

- Located at mile 314.5 on the Ohio River
- ~18 million tons of annual throughput capacity
- ~900,000 tons of storage capacity
- Rail and barge access
- 150 barge fleeting capacity
- 1,200 railcar track capacity
- Nine stacking tubes with Merrick feeders for maximum blending flexibility
- 500 ton/hour barge-to-ground offload system and two barge loadouts for maximum efficiency
- Simultaneous ground-to-barge or rail-to-barge loading
- ~\$12M capital investment will expand barge unloading capacity and bring offload system to 1,000 tons/hour

ABOUT THE QUINCY DOCK

- Located at mile 73.1 on the Kanawha River
- ~7 million tons of annual throughput capacity
- ~400,000 tons of storage capacity
- Truck, rail, and barge access
- 28 barge fleeting capacity
- 100 railcar unit train loadout facility
- State-of-the-art truck auger and computerized truck scales
- Tenna automatic sampler for outbound blend analysis/quality control

Company Information

ABOUT THE COMPANY

SunCoke is the largest independent U.S. producer of coke, currently supplying approximately 3.7 million tons to domestic and international steelmakers. We have U.S. cokemaking facilities in Virginia, Indiana, Ohio and Illinois, and international operations in Vitória, Brazil. Our industrial services business provides export and domestic material handling services to coke, coal, steel, power and other bulk customers, as well as mission-critical services to leading steel producers globally. The logistics terminals process raw materials and act as intermediaries between our customers and end users for both the U.S. and global export markets. Additional industrial services include the removal, handling, and processing of molten slag at customer sites, as well as preparation and transportation of metal scraps, raw materials, and finished products.

LOGISTICS TERMINALS

Our logistics terminals have the collective capacity to blend and transload more than 40 million tons of coal each year and are strategically located to reach Gulf Coast, East Coast, Great Lakes, and international ports. We are a leading provider of coal handling services in the Ohio River Valley Basin and Gulf Coast region with more than 30 years of experience receiving, blending, storing, and transloading thermal and metallurgical coals.

OTHER SUNCOKE LOGISTICS TERMINALS

Our fleet of terminals are located on Lake Michigan and the Mississippi, Ohio, and Kanawha Rivers, and designed for high-throughput offloading and storage of coal and other products from river barges, ocean vessels, trucks, and railcars. SunCoke's other logistics facilities include:

- Convent Marine Terminal (mile 161 on the Mississippi River, Convent, LA)
- Lake Terminal (East Chicago, IN)
