# Forward-Looking Statements

This presentation should be reviewed in conjunction with the fourth quarter and full-year 2025 earnings release of SunCoke Energy, Inc. (SunCoke) and conference call held on February 17, 2026 at 11:00 a.m. ET.

This presentation contains "forward-looking statements" (as defined in Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended). Forward-looking statements often may be identified by the use of such words as "believe," "expect," "plan," "project," "intend," "anticipate," "estimate," "predict," "potential," "continue," "may," "will," "should," or the negative of these terms, or similar expressions. However, the absence of these words or similar expressions does not mean that a statement is not forward-looking. Any statements made in this presentation or during the related conference call that are not statements of historical fact, including those concerning our possible or assumed future results of operations, our 2026 guidance and outlook, our 2026 key initiatives, future dividends, anticipated transaction benefits and synergies of the Phoenix Global acquisition, descriptions of our business plans and strategies, and other statements about our beliefs and expectations, are forward-looking statements and should be evaluated as such. Forward-looking statements represent only our present beliefs regarding future events, many of which are inherently uncertain and involve significant known and unknown risks and uncertainties (many of which are beyond the control of SunCoke) that could cause our actual results and financial condition to differ materially from the anticipated results and financial condition indicated in such forward-looking statements. These risks and uncertainties include, but are not limited to, the risks and uncertainties described in Item 1A ("Risk Factors") of our Annual Report on Form 10-K for the most recently completed fiscal year, as well as those described from time to time in our other reports and filings with the Securities and Exchange Commission (SEC).

In accordance with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, SunCoke has included in its filings with the SEC cautionary language identifying important factors (but not necessarily all the important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by SunCoke. For information concerning these factors and other important information regarding the matters discussed in this presentation, see SunCoke's SEC filings, copies of which are available free of charge on SunCoke's website at [www.suncoke.com](http://www.suncoke.com) or on the SEC's website at [www.sec.gov](http://www.sec.gov). All forward-looking statements included in this presentation or made during the related conference call are expressly qualified in their entirety by such cautionary statements. Unpredictable or unknown factors not discussed in this presentation also could have material adverse effects on forward-looking statements.

Forward-looking statements are not guarantees of future performance, but are based upon the current knowledge, beliefs and expectations of SunCoke management, and upon assumptions by SunCoke concerning future conditions, any or all of which ultimately may prove to be inaccurate. You should not place undue reliance on these forward-looking statements, which speak only as of the date of the earnings release. SunCoke does not intend, and expressly disclaims any obligation, to update or alter its forward-looking statements (or associated cautionary language), whether as a result of new information, future events, or otherwise, after the date of the earnings release except as required by applicable law.

# 2025 Year In Review

3

**Delivered FY 2025 Adjusted EBITDA<sup>(1)</sup> of \$219.2M; completed the acquisition of Phoenix Global; maintained quarterly dividend**

## FY 2025 Objective

Continue to deliver strong safety performance

## 2025 Achievements

Deliver FY 2025 Consolidated Adj. EBITDA<sup>(1)</sup> of \$220M - \$225M

Support Full Cokemaking Capacity Utilization

Continue Adding New Customers at Terminals

Pursue Balanced Capital Allocation

- SunCoke<sup>(2)</sup> Total Recordable Incident Rate (TRIR) of 0.55 for the full-year 2025

- Delivered FY 2025 Consolidated Adj. EBITDA<sup>(1)</sup> of \$219.2M

- Extended Granite City cokemaking contract through December 31, 2026
- Extended Haverhill II cokemaking contract through December 31, 2028
- New Q2 2025 take-or-pay coal handling agreement at Kanawha River Terminal through Q2 2028

- Completed the acquisition of Phoenix Global on August 1<sup>st</sup>, 2025
- Paid annual dividend of \$0.48/share

## Commentary

- Represents best-in-class safety performance
- Addition of Phoenix Global for 5 months
- Softer market conditions at terminals within Industrial Services segment
- Change in mix of contract and spot coke sales, Granite City contract extension economics, and Algoma breach of contract in Domestic Coke segment

- Granite City 2026 agreement at 2025 extension economics
- Key provisions of Haverhill II contract are similar to previous contracts
- Full year benefit of additional barge business at KRT in 2026

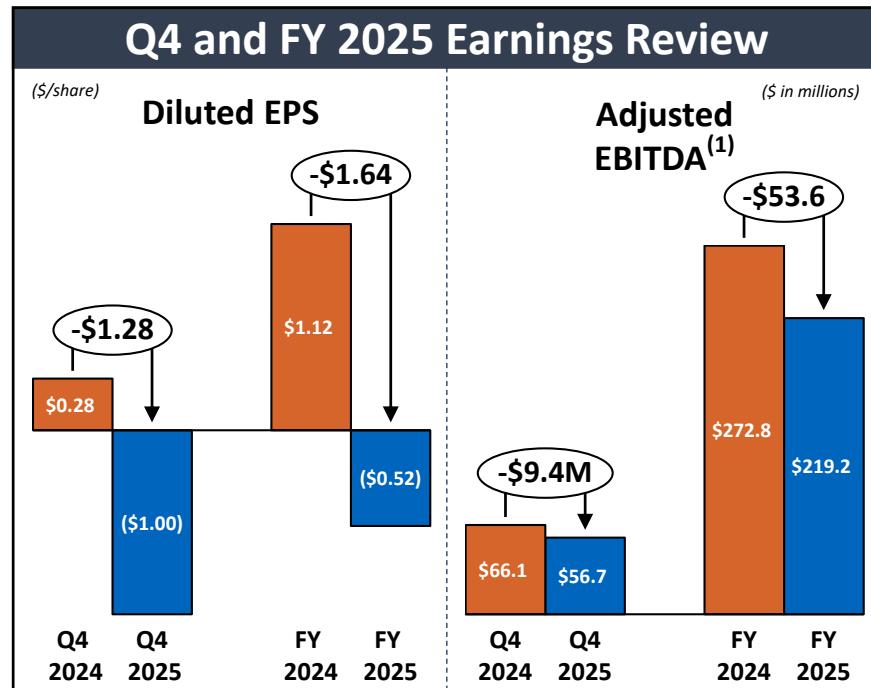

- Integration progressing well, continue to recognize synergies in 2026
- Pursuing Phoenix growth opportunities
- Anticipate continuation of quarterly dividend

(1) See appendix for a definition and reconciliation of Adjusted EBITDA

(2) Excludes Phoenix Global partial year TRIR

# Q4 & FY 2025 Financial Performance

4

- **Q4 '25 EPS of (\$1.00), down \$1.28 from the prior year quarter**
  - Primarily driven by one-time items totaling \$0.85/share net of tax, including a non-cash asset impairment charge primarily due to the closure of Haverhill I, site closure costs, and restructuring and transaction costs
  - Q4 '25 EPS also impacted by lower coke sales volumes in the Domestic Coke segment due to the breach of contract by Algoma
- **FY '25 EPS of (\$0.52), down \$1.64 from the prior year**
  - Primarily driven by one-time items totaling \$0.97/share net of tax, including a non-cash asset impairment charge primarily due to the closure of Haverhill I, transaction and restructuring costs, and site closure costs
  - FY '25 EPS also impacted by the change in mix of contract and spot coke sales coupled with lower economics on the Granite City contract extension, partially offset by lower income tax expense driven by capital investment tax credits
- **Q4 '25 Consolidated Adjusted EBITDA<sup>(1)</sup> of \$56.7M, a decrease of \$9.4M from the prior year quarter**
  - Domestic Coke segment down \$21.7M, primarily driven by lower coke sales volumes due to the breach of contract by Algoma and lower economics on the Granite City contract extension
  - Industrial Services segment up \$11.2M, primarily driven by the addition of Phoenix Global, partially offset by lower terminals handling volumes
- **FY '25 Consolidated Adjusted EBITDA<sup>(1)</sup> of \$219.2M, a decrease of \$53.6M from the prior year**
  - Domestic Coke segment down \$64.7M, primarily driven by the change in mix of contract and spot coke sales, lower economics on the Granite City contract extension, and lower coke sales volumes due to the breach of contract by Algoma
  - Industrial Services segment up \$11.9M, primarily driven by the addition of Phoenix Global, partially offset by lower terminals handling volumes

(4) 2026E Adjusted EBITDA and FCF are guidance mid-points; annual dividend \$/share represents continuation of \$0.12/share quarterly dividend for the full-year

# Projected 2026 Adjusted EBITDA<sup>(1)</sup> Guidance

9

Expect 2026 Consolidated Adjusted EBITDA<sup>(1)</sup> of \$230M - \$250M, mainly driven by the addition of Phoenix Global

# 2026 Domestic Coke Business Outlook

10

**2026 Domestic Coke Adjusted EBITDA estimated to be \$162M - \$168M; all foundry and spot coke sales finalized for 2026**

## Domestic Coke Performance

(Coke Sales, Kt)

\$170.0M

\$162M - \$168M

● Adjusted EBITDA<sup>(2)</sup>

- **Haverhill I operations to be shut down due to breach of contract by Algoma**
  - ~500Kt lower blast furnace coke production/sales represented lowest margin tons; expect modestly higher Domestic Coke Adjusted EBITDA per ton in 2026
  - Revised total Domestic Coke blast furnace equivalent capacity of ~3,690Kt<sup>(1)</sup>
- **Extension of Granite City contract at 2025 economics through December 31, 2026**
- **Contract extension with Cleveland-Cliffs at Haverhill II**
  - 3-year term, supplying 500Kt per year
  - Similar economics to previous contracts
- **Operating coke fleet at full utilization and sold out for the year**
  - ~3,000Kt contracted blast furnace coke sales
  - Remaining capacity to be sold in foundry and spot coke markets
- **Slow start to 2026**
  - Middletown turbine failure (insured event) impacting power production; the turbine is expected to be back in operation mid-year
  - Severe winter weather impacting several sites

(1) The production of foundry coke does not replace blast furnace coke on a ton for ton basis, resulting in a difference between guidance of ~3,400Kt coke sales (inclusive of foundry and blast) versus the stated Domestic Coke blast furnace equivalent capacity of ~3,690Kt

(2) See appendix for a definition and reconciliation of Adjusted EBITDA

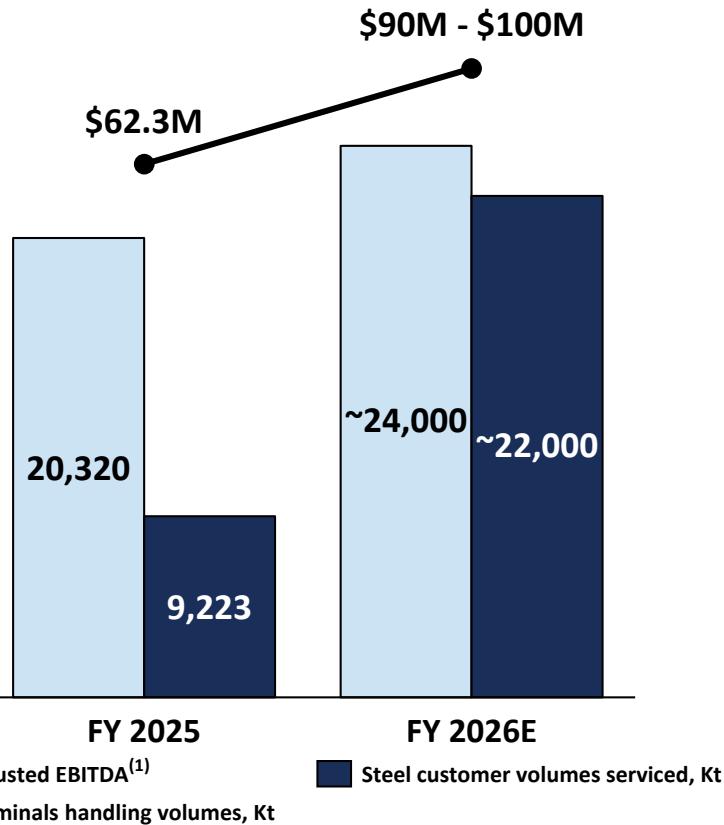

# 2026 Industrial Services Outlook

11

2026 Industrial Services Adjusted EBITDA estimated to be \$90M - \$100M;  
full year of Phoenix Global and improvement in terminals handling volumes

## Industrial Services Performance

- **2026 Industrial Services outlook based on expectations for improvement in market conditions**
  - Full year of Phoenix Global in 2026
  - Terminals handling volumes largely market-driven; current guidance assumes improved market conditions in 2026
  - Partial synergies included in 2026 guidance; expect to continue recognizing synergies in 2027

(1) See appendix for a definition and reconciliation of Adjusted EBITDA

# 2026 Guidance Summary

Expect 2026 Consolidated Adjusted EBITDA<sup>(1)</sup> of \$230M - \$250M;  
2026 Free Cash Flow<sup>(2)</sup> of \$140M - \$150M

# NON-GAAP FINANCIAL MEASURES

In order to assist readers in understanding the core operating results that our management uses to evaluate the business, we describe our non-GAAP measures referenced in this presentation below. In addition to U.S. GAAP measures, this presentation contains certain non-GAAP financial measures. These non-GAAP financial measures should not be considered as alternatives to the measures derived in accordance with U.S. GAAP. Non-GAAP financial measures have important limitations as analytical tools, and you should not consider them in isolation or as substitutes for results as reported under U.S. GAAP. Additionally, other companies may calculate non-GAAP metrics differently than we do, thereby limiting their usefulness as a comparative measure. Because of these and other limitations, you should consider our non-GAAP measures only as supplemental to other U.S. GAAP-based financial performance measures, including revenues and net income. Reconciliations to the most comparable GAAP financial measures are included at the end of this Appendix.

## DEFINITIONS

**EBITDA** represents earnings before interest, taxes, depreciation and amortization.

**Adjusted EBITDA** represents earnings before interest, taxes, depreciation and amortization ("EBITDA"), adjusted for any impairments, restructuring costs, gains or losses on extinguishment of debt, gains or losses on derivative instruments, site closure costs and/or transaction costs ("Adjusted EBITDA"). EBITDA and Adjusted EBITDA do not represent and should not be considered alternatives to net income or operating income under U.S. GAAP and may not be comparable to other similarly titled measures in other businesses. Management believes Adjusted EBITDA is an important measure in assessing operating performance. Adjusted EBITDA provides useful information to investors because it highlights trends in our business that may not otherwise be apparent when relying solely on U.S. GAAP measures and because it eliminates items that have less bearing on our operating performance. EBITDA and Adjusted EBITDA are not measures calculated in accordance with U.S. GAAP, and they should not be considered a substitute for net income, or any other measure of financial performance presented in accordance with U.S. GAAP.

**Adjusted EBITDA/Ton** represents Adjusted EBITDA divided by tons sold/handled.

**Free Cash Flow (FCF)** represents operating cash flow adjusted for capital expenditures and debt issuance costs. Management believes FCF is an important measure of liquidity. FCF is not a measure calculated in accordance with GAAP, and it should not be considered a substitute for operating cash flow or any other measure of financial performance presented in accordance with GAAP.

(1) Capacity represents blast furnace equivalent production capacity

(2) Represents production capacity for blast-furnace sized coke, however, customer takes all on a “run of oven” basis, which represents >600k tons per year

(3) Will operate in a turn-down mode in 2026 as part of the contract extension

(4) As of Q3 2025, Algoma has refused to accept any additional coke tons; SunCoke actively pursuing enforcement of contract
